

Thank you for your purchase! Please contact us at info@elitesinks.com if you have additional questions.

ELANTI WALL-MOUNTED SINKS

Including model numbers: EC9808, EC9819, EC9859, EC9868, EC9888-L, EC9899-L&R, EC1101, EC1103, EC1105, EC1409, EC1601, EC1602-L&R, EC1603-L&R, EC1605, EC1804, EC1805-L, EC1805-R, EC1806 and EC1808.

Each wall mounted sink shipment includes one (1) or two (2) three-inch metal expanding mounting bolts in the package.

1. Place the bolt(s) through the mounting hole(s) in the back of the sink and the wall.
2. Fasten and tighten the nut side (on the back of the sink) to expand the bolt in the wall.

Adding a metal plate in the wall can provide extra support and may be recommended. Since each installation job is different, always hire a plumbing professional when installing all Elite Sinks products.

ELANTI VESSEL AND COUNTER TOP SINKS

Including model numbers: EC9818, EC9829, EC9838, EC9848, EC9869, EC9879, EC1102, EC1104, EC1604, EC1606, EC1801, EC1802, and EC1803.

The installation of all ELANTI vessel type sinks does not require any special handling. The sink will sit directly on the countertop and the drain will secure it from underneath. The drain will come with its own installation guide that includes securing it to the sink. Since each installation job is different and different countertop materials will require on-site adaptation, we recommend the assistance of a plumbing professional when installing all Elite Sinks products.
